Competition Agent evidence workflow

2026-07-17

1 Scope and compliance

This report is generated only from persisted rule, data and experiment records. It does not claim unrecorded results.

- Task: image_segmentation
- Primary metric: global_water_iou (maximize)
- Rules require human confirmation: True

2 Data audit

Audited files: 5536. Quality issues: 0. Exact duplicate groups: 0.

3 Experimental protocol and results

Experiment	Status	global_water_iou	Change type
------------	--------	------------------	-------------

No completed validation result is recorded yet.

4 Limitations and next steps

All conclusions remain conditional on the official-rule confirmation, data-audit findings and held-out evaluation. The decision memo should be reviewed before the next run.

5 Related work candidates

This initial report cites only the manually reviewed candidates. The full automated radar remains a separate evidence record. [4, 3, 2, 1].
